

Official Black List Of AIS

By vote of the directors, January 29, 1925, the following varieties of Tall Bearded Irises are considered as unworthy of further propagation. All members should refrain from assisting in their dissemination whether by purchase, by sale, by exchange, or by gift.

Plants of these varieties are on record at the New York Test Garden, Upon the request of five members the judgment of a variety may be reconsidered, and upon action of the directors, other varieties will be added to this list.
